RUNWAY FEES

Runway fees are assessed on the basis of the maximum total weight authorised of an aircraft, which means the maximum total weight of the aircraft and of its contents at which the aircraft may take off in the United Kingdom in the most favourable circumstances, in accordance with the Certificate of Airworthiness for the time being in force in respect of the aircraft. If the certificate indicates a maximum total weight at which aircraft may taxi, that weight shall be taken to be the maximum total weight authorised.

£2.82 per half metric tonne or part thereof up to 3 tonnes, thereafter £5.63 per tonne or part thereof.

No reduction in Runway Movement Fees or Navigational Service Charge will be allowable by reason of the unavailability or non-use of any aerodrome services, assistance or other facilities.

The Runway Movement Fee for all helicopter movements will be equivalent to that for a fixed wing aircraft of the same maximum total weight authorised.

Flights without landing but involving the use of ATC equipment Nav aids or Lighting, will be charged a fee equivalent to the appropriate Navigational Service Charge element applicable for each approach made.

All landings or go-arounds will be subject to a £28.00 minimum charge per landing or go-around.

Runway fees and navigational service charges are levied upon departure of the aircraft.
